NOTE: To view End 2 End correctly, you must turn your PSP® system counterclockwise 90 degrees.

Each successful juke is awarded a Perfect, Good, or Poor rating. Your score accumulates based on those ratings and the combo bonuses you earn by breaking two or more tackles in a row. High scores unlock music tracks and the AFC and NFC Hall of Fame teams.

The game ends after 15 rounds, or when you get tackled for the fifth time.

MULTIPLAYER WIRELESS PLAY

Find a challenger online anytime via Infrastructure mode or battle friends head to head from across the room in Ad Hoc mode.

REGISTRATION REQUIRED TO ACCESS ONLINE FEATURES. TERMS & CONDITIONS AND FEATURE UPDATES ARE FOUND AT WWW.EASPORTS.COM. YOU MUST BE 13+ TO REGISTER ONLINE.

EA MAY RETIRE ONLINE FEATURES AFTER 30 DAYS NOTICE POSTED ON WWW.EASPORTS.COM OR 30 DAYS AFTER THE LAST DAY OF THE 2006-2007 NFL SEASON.

WI-FI (WLAN) FEATURES

Software titles that support Wi-Fi functionality allow you to communicate with other PSP systems, download data, and compete against other players via a connection to a wireless local area network (WLAN). You can adjust the network settings to allow connection to a wireless local area network (WLAN). There are two WLAN modes, Ad Hoc mode and Infrastructure mode.

NOTE: The player is responsible for any Wi-Fi fees.

INFRASTRUCTURE MODE

Infrastructure mode is a Wi-Fi feature that allows the PSP system to link to a network via a WLAN access point (a device used to connect to a wireless network). In order to access Infrastructure mode features, several additional items are required, including a subscription to an Internet service provider, a network device, a WLAN access point, and a PC. For further information and set up details, please refer to the PSP® system's Instruction Manual.

HINT: A WLAN access point is a device used to connect to a wireless network. SSID and WEP keys are types of wireless network information. They may be required when connecting to an access point or a router. This information is generally set in the access point or router using a PC.

ONLINE LOBBY

Use the Online Lobby to find games against other EA SPORTS members or to set up a game of your own.

In order to play *Madden NFL 07* online you need to log in with or create an EA SPORTS user name, and establish a network connection. Follow the on-screen instructions to do so.

EA LOCKER NOTE: The displayed file size is the amount of space taken up in your EA Locker. File sizes may increase when downloaded to the Memory Stick™.

AD HOC MODE

Play head to head against other players within shouting distance. As long as you both have copies of *Madden NFL 07*, you'll be ready to hit the field.

Ad Hoc mode is a Wi-Fi feature that allows two or more individual PSP systems to communicate directly with each other.

FRANCHISE MODE

Call the shots for up to 32 teams for as many as 30 seasons. To begin a Franchise, choose the number of users and whether you will conduct a fantasy draft, and then select the team for each user.

FANTASY DRAFT

If you conduct a fantasy draft, you'll be able to build your team from the ground up from the entire pool of NFL players. You have 49 rounds to fill out your roster. Because this is the starting point of your Franchise, pay attention to a player's rating, age, and the cap room he requires.

THE FRANCHISE SCHEDULE

From training camp to the off-season, you're in charge. This is the progression of each Franchise season:

Training Camp—Put your players through drills and earn points to boost their attributes. You can skip camp if you want, but your players will suffer.

Preseason—Finalize your roster and evaluate rookies before the regular season. The Position Battles screen shows who's fighting for the same position. Your preseason depth chart is automatically set: starters play the first half, rookies and backups play the second half.

During the Season—You can play any game on the schedule. You can also make player trades before the sixth week of the season and sign free agents. Even if your team doesn't make the playoffs, you can still play any postseason game including the Super Bowl and Pro Bowl.

Off-Season—There are 12 steps to the off-season that must be completed before beginning a new season. If you wish to skip any steps in the off-season, you can simulate past them.

FRANCHISE MODE MENU

Keep track of everything going on around the league and with your team. These are the key menu options that become available at different times of the year:

Gameplan	Get all the information you need and put key players through practice to prepare for your upcoming game.
Rosters	View team rosters and make all player movements and transactions.
Assistant Coach	Earn points by meeting established goals throughout the season and use them to increase the attributes of your practice squad or main roster players.
My Franchise	Set your coaching strategies and gameplay settings, and save your Franchise mode progress at any time.

Spawned Games and Franchise Files Save key games throughout the season then play them at any time. You can also play your PlayStation®2 spawned files on your PSP system then transfer them back through the PlayStation®2 Link.

NOTE: If you make changes to your PlayStation®2 Franchise or start a new Franchise after spawning a game, you won't be able to merge the results of that spawned game. Also, if you delete a Franchise file, any spawned games attached to it become unstable.

MY MADDEN

Keep track of all your stats, set your audibles, and choose your gameplay and system settings. Make sure you save your changes so every time you load your User Profile, all your My Madden settings will load as well.

My Stats	View career stats for every active coach, and general stats for all User Profiles, User vs. User stats, and User Records.
Rosters	Keep your game up to date with real-world transactions, or make the moves you wish had been made during the last off-season.
Coaching Strategy	Set your audibles and Hot Routes, and create custom formations.
Gameplay Settings	Most of these settings are easy to figure out. Those that need some explanation are detailed below.

GAME SETTINGS

Coach Mode: You call the shots from the sidelines and the CPU executes each play—with this turned on, you have no control of your players.

Player Lock: The defensive player you select before the snap is who you control at the start of the next play.

Autoswitch Back: When controlling the lead blocker, having this option turned ON automatically switches you to the ball carrier after you have either engaged in or missed a block. When this option is turned OFF, you control the lead blocker until you press the  button.

Blocking Slowdown: This slows down the game when you establish a block as the lead blocker.

Switchback Slowdown: This slows the game when you switch from the lead blocker to the ball carrier.

Blocking View: When this is set to Zoomed In, the game camera zooms to the lead blocker.

Auto Pass: Your QB makes plays for you when you don't control him yourself.

Auto Strafe: Automatically strafes defender to help adjust to the ball carrier.

Offensive Catch Assist: The CPU helps catch the ball for a user-controlled receiver.

Defensive Pass Assist: The CPU swats/catches the ball for a user-controlled defender.

CUSTOM GAME SETTINGS

PLAYSTATION®2 LINK

You can connect to your PlayStation®2 computer entertainment system via a USB 2.0 cable. You'll be able to download a Franchise Mode file, custom rosters, and a User Profile from the PlayStation®2 version of *Madden NFL 07* to your PSP® system. Then you can play those games with your PSP® version of *Madden NFL 07* while you're on the go. When you're done playing, you can transfer the Franchise file back to your PlayStation®2 and continue playing.

To Connect, select PlayStation®2 Link from the Main menu, and select PSP® Link from the Features section of the Main menu of your PlayStation®2 *Madden NFL 07* game.
